Introduction to Screening:

I will be asking you some questions about use of different substances that we ask our students so we can best support their overall well-being and success in school. What you tell me is confidential, in other words, will stay between you and me. The exception is if I learn there is an immediate risk to your safety or someone else’s, or if you or someone else has been a victim of abuse. In those cases, we will talk about it and figure out our next steps together. Do you have any questions about how that works? Would it be OK to move forward with the screening?

S2BI: Screening to Brief Intervention

In the past year, how many times have you used:

- Tobacco? ________________
- Alcohol? ________________
- Marijuana? ________________

STOP if all “Never.” Otherwise, CONTINUE.

- Prescription drugs that were not prescribed for you (such as pain medication or Adderall)?
- Illegal Drugs (such as cocaine or Ecstasy)?
- Inhalants (such as nitrous oxide)?
- Herbs or synthetic drugs (such as salvia, “K2”, or bath salts)?

Introduction to BI:

Hi, my name is_________ and I am a <job title> here. I’d like to take about 10 minutes to discuss the results of the screen you just completed. I’m not going to lecture you or tell you what to do about alcohol or drugs; you’re In charge of you and only you can make those decisions. I just want to think with you about your use and how it fits into your life. Would that be alright?
